Continued with sworn assurances on page 2 – please sign both pages.

Signature

Sworn assurances

I declare in lieu of an oath¹ (please tick all that apply):

The software named above was my sole and unrestricted property at the time of sale, and I am entitled to sell it.

The software was first placed on the market within the EEA or in Switzerland on a permanent basis (for a one-off fee) with the rightholder's consent.

It is not a hardware-bound OEM licence; for volume licences the package is transferred in full and undivided.

I have permanently deleted or rendered unusable all installations, data carriers and every backup or partial copy of this software.

The transferred licences will not be used, now or in the future, as a predecessor or base licence for upgrades or subsequent versions.

From the moment of my signature I no longer use the software in any form and retain no full or partial copies.

The information provided is complete and true; on request I will submit evidence of the licence origin (e.g. the original invoice).

¹ I am aware of the legal significance and the criminal liability of a knowingly incorrect declaration made in lieu of an oath.

² Legal basis of exhaustion: EU/EEA (UsedSoft, CJEU C-128/11) or Switzerland (Art. 12(2) CopA) – depending on the legal area selected above.
Data protection: Kewee OÜ processes the data provided solely to handle the licence purchase (keywi24.ch/datenschutz).
